TTS 10ft Instrument Room

The TTS 10ft Mobile Instrument is a professionally converted standard 10ft shipping container.

The Instrument room has been fitted with 2x independent Glands on either side of the container for cable runs in and out.

The Instrument room utilises 240v electrical input and comes fitted with 4x electrical breakers, lights and 2x 19 Inch racks.

The TTS Instrument room provides comfortable acquisition space for vessels with limited space or awkward cable runs.

Fittings are mounted for an air conditioning unit and this can be provided if required
