

TTS Hydraulic Power Pack

The TTS Hydraulic Power Pack supplies high pressure hydraulic oil to any hydraulic units.

Powered by a reliable Amtek Motor the unit comes with 20m of electrical 3 Phase cable for quick mobilisation.

Heat exchangers can be supplied with the unit for use in hot climates.

The unit is encased in a safety frame and heavy duty waterproof covers ensure that the pack is protected for extended periods of offshore use.

Specifications

Performance Oil Delivery: 58 LPM (Litres Per Minute)

Motor Model: Amtek – IEC34-1

Motor Weight 175KG

Motor Size: 22KW

Electrical Current Draw: 415V supply = 43 Amps

Heat Exchanger: Thermex Heat Exchange (10 Bar Rated)

Oil Filer: FBN Filtra 13 Micron

Dimensions & Weight:

Unit mounted in Safety Frame with cover
(for extended periods of outdoor use)

Length: 0.93 metres

Width: 0.78 metres

Height: 1.56 metres

Weight: 250kg
